

HARDY STAINLESS RETRACTOR £6.99

5 RETRACTOR, zinger, call it what you like, this is a well-made accessory from Hardy and has a strong steel case with a safety-pin-type attachment mounted on the back. It has a high quality quick release clip on the end of a 500mm coated wire cord that has a little rubber cushion so when it hits the case it doesn't 'clang'! The wire cord will outlast any nylon or similar versions and is incredibly strong.

Verdict: *Strong cord and good size clip*
